The Test of English as a Foreign Language (TOEFL iBT) measures the ability of nonnative speakers of English to use and understand American English as it is spoken, written and heard in college and university settings. Most people who take TOEFL iBT are planning to study at colleges where instruction is in English. In addition, many government agencies use TOEFL iBT scores to evaluate English proficiency.

Currently more than 8000 universities, two and four-year colleges, professional schools, and sponsoring institutions accept TOEFL iBT scores.
